The writer lists and numbers all sources in the order they appear in the paper.

Double-spacing is used throughout, with no extra spacing between entries.

Authors' last names are followed by first and middle initials.

For a journal article, author's initials are followed by the article title, abbreviated journal title, publication date, volume or issue number, and page numbers.

For a book (not shown here) the author and title are followed by the publisher's city, state, and name and the publication date (e.g., London: Academic Press; 2001.).
